

Cookie Policy

Community Development Initiatives International NPC

Reference: CDII/CP/2026/001 | Version 2.0 — FINAL | Effective: 16 June 2026

Information Officer: Louw Allan | information.officer@wemindfoundation.co.za

Final, independent policy. This is CDII's final Cookie Policy for its own website, www.wemindfoundation.co.za, describing exactly what is technically deployed rather than an audit estimate. One implementation step remains outstanding: a cookie consent banner is being built and will be live before Google Analytics begins collecting any data. Until both are in place, no non-essential cookie is set on this website.

What Are Cookies?

A cookie is a small text file placed on your device when you visit a website. Under POPIA, any cookie that can identify you — directly or indirectly — is personal information and must be processed lawfully.

This Policy applies only to www.wemindfoundation.co.za, which CDII registered and operates independently. It does not apply to www.wemindfoundation.com or cdii.org.za — those domains remain on infrastructure controlled by a third party under an unresolved ownership dispute, and CDII cannot certify what cookies that infrastructure deploys.

Cookie Categories

STRICTLY NECESSARY

No consent required

Consent Preference

Once the consent banner is implemented, stores your cookie choice so you are not asked again on every visit. Cannot be disabled. Lawful basis: legitimate interests (POPIA s11(1)(b)). Pending banner build.

FUNCTIONAL

Consent required, if introduced

Preferences

Would remember user preferences such as language or display settings. Lawful basis: consent (POPIA s11(1)(a)). Not currently used.

ANALYTICS

Consent required

Google Analytics 4

Understand how visitors use the website, to improve content and navigation. Tracking code is installed but inactive — a Measurement ID has not yet been configured. Will be activated only once the consent banner is live. Lawful basis: consent (POPIA s11(1)(a)).

THIRD-PARTY

No cookie set

Google Fonts

Delivers our Fraunces and DM Sans typefaces from fonts.googleapis.com and fonts.gstatic.com. Sets no cookie, but your browser does request the font files directly from Google's servers, which exposes your IP address to Google for that request. Active on every page. Policy: policies.google.com/privacy.

MARKETING

Not currently used

Targeting & Advertising

Not currently deployed. If introduced, this policy will be updated and fresh consent obtained before any marketing cookies are placed.

Cookie Consent Banner

Once implemented, a consent banner will be displayed on your first visit, allowing you to accept all cookies (including Google Analytics), reject all non-essential cookies, or customise by category. Your preference will be stored for 12 months. CDII will not place Google Analytics or any other non-essential cookie on your device until the banner is live and you have made a choice — declining will never prevent you from accessing the content of this website.

Controlling and Deleting Cookies

Once implemented, click Cookie Settings in the footer of any page to update your preferences at any time. You may also control cookies through your browser settings — most browsers allow you to view, delete, and block cookies.

To opt out of Google Analytics in advance, install the Google Analytics Opt-out Browser Add-on.

Contact the Information Officer at information.officer@wemindfoundation.co.za with any questions about our use of cookies.
